ABOUT

Data Analyst and Data Science graduate (B.Tech CSE, CGPA 8.5/10) with hands-on experience in Python, SQL, Power BI, and data visualization. Completed analytics projects in sales performance, HR attrition, and stock market analysis, transforming complex data into actionable business insights. Certified in Oracle Cloud Infrastructure (OCI) and IBM Python for Data Science.

SKILLS

Programming & Tools

Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly) | SQL (Joins, CTEs, Window Functions) | Power BI (DAX, Data Modeling) | Microsoft Excel

Core Skills

Data Analysis | SQL Querying | Data Cleaning | EDA | Statistical Analysis | Dashboard Design | Data Visualization | Business Intelligence

INTERNSHIP EXPERIENCE

Data Science Intern – Altair (Remote)

Jul 2025 – Sep 2025

- Cleaned and transformed raw datasets using Python, improving data quality through handling missing values, duplicates, and outliers.
- Conducted exploratory data analysis (EDA) to uncover trends, correlations, and business insights.
- Created interactive visualizations and dashboards using Plotly and Matplotlib to support data-driven decision-making.
- Prepared reports and presentations summarizing analytical findings for stakeholders.

ACADEMIC PROJECTS

Sales Performance & Business Health Dashboard

Power BI | Excel | DAX | Data Modeling | Business Intelligence | [GitHub](#)

- Analyzed multi-year retail sales data across regions, categories, and sales reps to track 2.94M in revenue and 372.8K in profit.
- Identified Technology as the top revenue driver and Standard Class shipping as the cause of 40.76% delivery delays, flagging it as a priority operational risk.
- Built a 3-page interactive Power BI dashboard with KPI cards, YoY growth metrics, target achievement tracking, and slicers for region, category, and ship mode.

HR Analytics – Employee Attrition Dashboard

Python | Power BI | Pandas | Seaborn | [GitHub](#)

- Analyzed 14,999 IBM employee records to understand attrition patterns by salary, tenure, and department.
- Identified salary level and tenure as key attrition drivers, with low-paid employees in their early tenure showing 2.3× higher attrition risk.
- Built Power BI dashboard with filters and drill-down features for easy workforce analysis.

Stock Market Analysis & Portfolio Optimization

Python | SQL | Pandas | Matplotlib | [GitHub](#)

- Built stock analysis pipeline using Python and SQL to compute returns, moving averages, and volatility for 10+ stocks.
- Showed that diversification reduces portfolio risk by ~30% using correlation analysis.
- Developed correlation heatmaps and risk-return visualizations to support portfolio allocation and investment decision-making.

CERTIFICATIONS

- Data Science Professional – Oracle Cloud Infrastructure (OCI)
- Python for Data Science – IBM

EDUCATION

B.Tech – Computer Science & Engineering (Data Science)

Mohan Babu University, Tirupati | 2022–2026 | CGPA: 8.5/10
